Discussed nature of complaint with operator who is not aware of complaint.

Routine inspection conducted same day as complaint investigation. During inspection, adult cockroach was observed climbing up wall at dishwasher area. Live adult and nymph cockroaches were observed in floor sink beneath soda station. When floor sink liner was removed, numerous dead nymph cockroaches were observed lining floor sink and live nymph cockroaches observed crawling on exterior of floor sink liner. Nymph cockroaches also observed crawling on floor beneath soda station, adjacent to floor sink.

Facility is closed due to active cockroach infestation. Permit shall remain suspended and facility closed until reinspection is conducted by EHS.
